

# MASTER OF SCIENCE IN BUSINESS ECONOMICS AND ADMINISTRATION GLOBAL LOGISTICS AND SUPPLY CHAIN MANAGEMENT

## FACULTY OF SOCIAL SCIENCE

### GENERAL PROFILE

The aim of the Master of Science in Economics and Business Administration with specialization in Global Logistics and Supply Chain Management is to provide a thorough and broad understanding of central aspects of Global Logistics and Supply Chain Management.

This should make the graduates highly competitive in terms of skills to analyze and solve problems in these areas. The specialization provides key competences in strategic and tactical aspects of Global Logistics and Supply Chain Management.

### CAREER PROSPECTS

The Master of Science in Global Logistics and Supply Chain Management provides competences for students who wish to pursue a career in production and inventory management, operations management, supply chain management, lean management, management consulting, corporate staff functions, general management, and business development.

Two specific profiles are offered:

1. A profile in *Organizational Issues* is aimed at students who seek a career requiring competences in strategy and organization. Career examples, besides the above, include general management consulting

or as an internal consultant or change manager.

2. A profile in *Advanced Cost Accounting Issues* is aimed at students who seek a career requiring competences in cost accounting management and production and inventory management.

### CAREER PROSPECTS

Career examples, besides the above, include cost accounting manager, operations or production manager.

### STRUCTURE

120 ECTS = 2 years workload

### COMPULSORY COURSES

There are four compulsory (constituent) courses:

#### *Autumn:*
