To Whom It May Concern ,

As the President of Galatasaray Euroforum 2007, it is my great pleasure to inform you that Galatasaray Euroforum 2007 will be held between April 20th-26th, 2007, in Istanbul, Turkey, for the seventh time this year, gathering together graduate and undergraduate students from all over the world.

Galatasaray Euroforum is a Model European Union Conference, which conveys simulation of decision-making organs of the EU. During the conference; which will be held both in English and French languages, participants will act as heads of governments, foreign ministers, commissioners and representatives of the EU countries and debate the current subjects in the EU agenda. By this mean, participants have the perfect opportunity to directly experience the EU's procedures and politics. This year the topics to be discussed will focus on the theme: "Diversity of Europe". You may find more information about the conference in the brochures and on our web site www.uhdk.com.

On behalf of Galatasaray University International Law and Diplomacy Club, I would like to cordially invite your students to this exciting event to ameliorate the peace and understanding among the universities of the world.

Yours Sincerely,

Ilker Hepkaner

President of Galatasaray Euroforum 2007
